Golf Course Supplies was established on the 24th November 1989 originally manufacturing a total of 11 products, currently manufacturing over 50 products developed to suit local conditions and demands. Over the many years we have developed and designed many of the accessories that are found on golf courses throughout sub-Saharan Africa. With my knowledge and experience of over 35 years in engineering as a tool and die maker, you can be sure of quality first class products!

In addition to numerous improvements made to already existing products, we are pleased to announce that we now manufacture a tapered tournament flag pole (see page 4 for details).

Additional products are in the process of development, and we welcome ideas and suggestions for all concerned with enhancing the quality, image and enjoyment of the game!

Finest wishes!

Aluminium Flag Swivel

Anodised Aluminium Swivels with plastic fasteners.

Econo-swivel

Our econo-swivel with ABS hooks and stainless steel rod won't rust or need any fasteners, and can fit various flags. Just snap on your flags into the adjustable hooks. It's as easy as that!

New Tubular Flag

All-in-one convenient tubeless flag-swivel combo just needs to be slipped over the flag pole. Available in red, yellow, blue and white.

Advertising Inserts

Our Advertising Inserts are great for hole sponsorship. These inserts are moulded from polycarbonate, a strong and resilient plastic. Ask local business to advertise!

Sight Rings/Hole Targets

These bright Sight Rings highlight the area above the cup for complete visibility.

Practise Green Cups

100mm high Practice Green Cup made from 1st grade ABS plastic.

Aluminium & Plastic Greens Cup

Both our Aluminium and Plastic Cups (pictured right) are Grooved! These grooves allow sand to filter through. This helps prevent the flag pole's ferrule from sticking in the cup. Plastic Cups are manufactured from the highest quality ABS with a green nylon insert for long lasting durability. Also available without nylon insert.

Fibreglass Flag poles 7002/7003

Flag Poles are available in yellow and red. Flag Poles can also be ordered in two-tone black/white and black/yellow (600mm from the base of the ferrule). Lengths available are 2m and 2,4m.

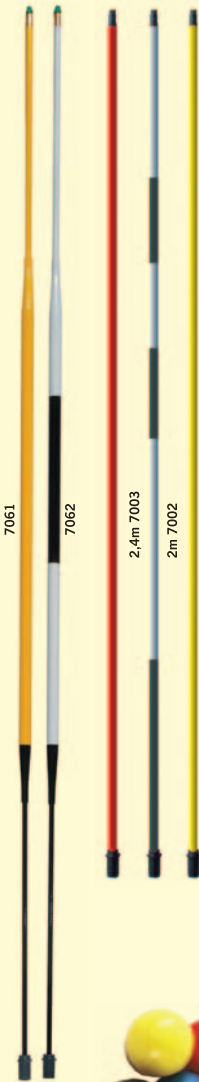

Tournament Flag poles 7061/7062

The only locally manufactured tapered Tournament Flag pole made with a fibreglass pole and tapered aluminium sleeve. At 25mmØ, it is visual, lightweight and stylish!

These Fibreglass poles have plastic ferrules reinforced with a steel weight. Being plastic, they will wear less on the plastic cup and vice versa.

Practise Green Markers

Practice Green Marker with Poly-prop reinforced disc and fibreglass rod available with or without numbers in white and yellow. NOW also available with nylon flag.

Placement Markers

Tough, durable ABS Placement Markers held by grommets.

Nylon Flags

Quality Nylon Flags, rectangular or triangular, designed with triple stitching. Available in red, blue, white and yellow. These nylon Flags can be numbered or printed with your logo.* Size: 500mm X 400mm.

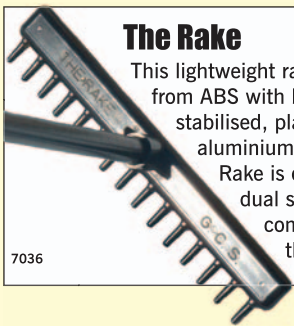

* minimum order required

The Rake

This lightweight rake is moulded from ABS with black, UV stabilised, plasti-coated or aluminium handle. The Rake is designed with a dual sided head to both comb and smooth the surface.

7036

Tee cradle

Tee Cradles are also available on order and come in combinations of: ball washer, litterbin, and/or cast aluminium sign. ▶

7019

7017
&
7018

Litterbin

Our Litterbin has been designed with quality and cost in mind. This Litterbin is manufactured from diamond mesh stainless steel and is powder coated in green for long lasting durability.

Lollipops with decals

Just what you wanted for competitions. *Closest to the Pin* and *Longest Drive* (168mm) markers moulded out of UV-stabilised white ABS with 4mm galvanised pin. The marker is sold as a blank unit with replaceable vinyl adhesives decals sold separately (7043). After the competition the decal is removed and replaced with a new one. The decal has a matt finish and can be written on using pen or pencil. It is also water proof for those rainy days. The reverse side of the lollipop is blank for sponsors. ▶

7042

Golf Ball Washer

Manufactured to be positioned directly into the ground, our Tru-Putt ball Washer has proved to last much longer as it is now fitted with a nylon insert to slow wear and tear on the spiral mechanism!

7015

Custom Tees

Give your Tees prestige with these customised aluminium die-cast Custom Tee Markers powder coated in a colour of your choice! Ask us for a quote they are not as expensive as you think.*

Drain- and Ball-type tee markers

A range of Tee-Markers which include Ball-Type, Cut-Off Type (150mmØ) and Umbrella Type (200mmØ). Can be powder coated in various colours.

Aluminium Cast Signs

Durable personalised Aluminium Cast Signs.

U-Bracket

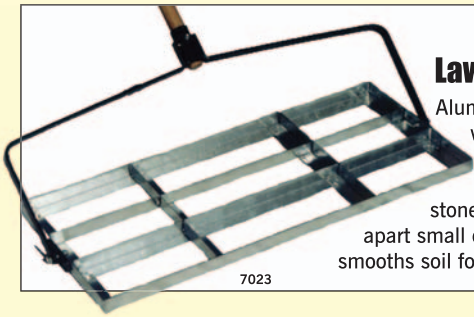

U-Bracket with ABS signage board is highly versatile, as it can be used for all of your signage needs from distance range markers to cart signage.

Bench

This High Back Bench with powder coated green steel frame and cool-to-touch treated wooden slats, is sturdy, durable and will aesthetically blend in with the environment.

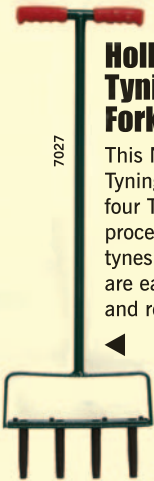

* minimum order required

7023

Lawn Leveller

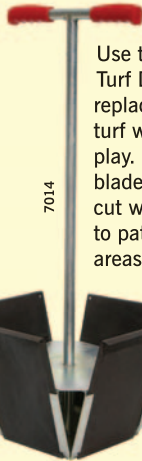

Aluminium Lawn Leveller with wooden handle distributes application material, removes stones from the soil, breaks apart small clods of soil and smooths soil for planting.

7027

Hollow Tyning Fork

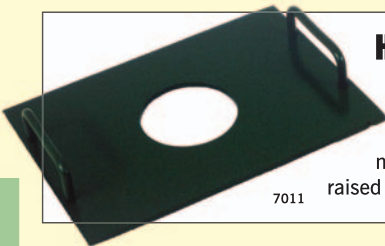

This NEW Hollow Tyning Fork has four Tufftride® QPQ processed durable, tynes. These tynes are easily removed and replaceable.

7014

Turf Doctor

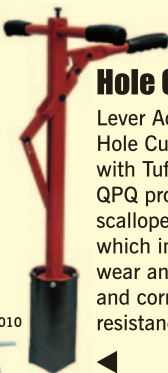

Use this galvanised Turf Doctor to replace damaged turf without delaying play. Four razor sharp blades (200mm2) cut wedges of turf to patch damaged areas. Now with with Tufftride® QPQ processed blades.

7011

Hole Cutting Plate

Powder coated Hole Cutting Plate encourages straight cuts and eliminates heel marks as well as minimising raised hole edges.

7010

Hole Cutter

Lever Action Hole Cutter with Tufftride® QPQ processed scalloped blade which improves wear and tear and corrosion resistance.

7060

Split Blade Hole Cutter

Split Blade Hole cutter is excellent for those difficult areas.

7046

Ditch Step

Long lasting Aluminium Ditch Step is made especially for the bowling green.

7056

Cup Hole Cleaner ▲

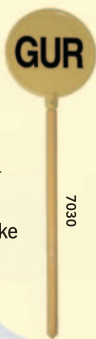

This Cup Hole Cleaner removes debris from the hole before inserting your cup.

7012

Aluminium Cup Setter

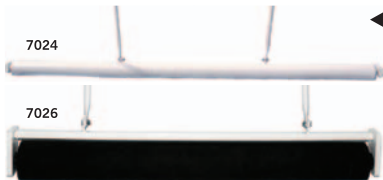

Powder coated aluminium Cup Setter which precisely places the green's cup 1 inch below the surface.

7030

GUR Sign ►

This popular GUR Sign with poly-prop face and fibreglass stake is both economic and durable.

7024

7026

Heavy Polishing Roller ▲

Custom made for the bowling greens.

◀ Dew Roller

Twin Dew Roller and Single Dew Roller are constructed of aluminium and powder coated in white, The Dew Roller can be filled with water to increase the weight.

Heavy Duty Drag Mat

Galvanised steel Heavy Duty Drag Mat, 1m X 1.3m, is ideal for spreading sand and seed mix with even distribution on greens. Custom sizes available on order.

7026

Golf Bag Stands

Collapsible and Standard Golf Bag Stand made from steel and powder coated in yellow.
